

# Mosquito Repellent

The AutoMos Starter Pack is designed to provide effective [mosquito repellent](#) in a convenient, automated form. It includes a dispenser machine, a refill (lasting up to 90 days), and two AA batteries for power. The machine disperses repellent at set intervals, offering up to 90 days of protection. It's advertised as safe for families with children and pets, uses fewer chemicals compared to other methods, and doesn't emit a strong odor. Users can even keep windows open while using the system. However, consider room size and severity of mosquito infestation, and read customer reviews before purchasing. Always follow manufacturer instructions for safe use. The AutoMos Starter Pack is an option worth considering for effective mosquito control.
